

# BOSKALIS CREATES NEW HORIZONS

Boskalis creates new horizons for all its stakeholders. As a leading global dredging and offshore contractor we offer a unique combination of experts, vessels and services. While maintaining the highest safety and sustainability standards, we provide innovative and competitive integrated solutions to our clients in the offshore energy sector, ports, and coastal and delta regions of the world.

For the offshore energy sector we offer a wide variety of maritime services and contracting. These include the development, construction, transport, installation, inspection, repair & maintenance (IRM) and decommissioning of offshore and onshore energy production facilities. With these activities we create and protect prosperity and advance the energy transition.

130

**MAKING THE ENERGY TRANSITION HAPPEN**

Boskalis has a leading role in the offshore wind market, making a unique contribution to the global energy transition. With our unparalleled range of activities we were involved in the realization of more than 130 offshore wind farms.

# CREATING NEW HORIZONS IN OFFSHORE ENERGY

# OUR VERSATILE OFFSHORE FLEET

Boskalis operates one of the largest fleets of specialized offshore vessels in the world, able to meet specific project requirements.

11 SEMI-SUBMERSIBLE HEAVY  
TRANSPORT VESSELS

2 HEAVY LIFT VESSELS

3 CABLE-LAYING VESSELS

5 DIVING SUPPORT VESSELS

3 FLOATING SHEERLEG CRANES

13 OCEAN TOWAGE TUGS

14 ANCHOR HANDLING TUGS

9 CONSTRUCTION SUPPORT VESSELS

3 SUBSEA ROCK  
INSTALLATION VESSELS

21 SURVEY VESSELS

## OUR SERVICES IN THE OFFSHORE ENERGY PROJECT LIFE CYCLE

**We offer a unique range of offshore services to the international energy sector - oil, gas and renewables.** We are involved in the development, construction, transportation, installation, inspection, repair and maintenance (IRM), and decommissioning of offshore and onshore energy production facilities. Furthermore we contribute to climate change mitigation by expanding access to renewable power and facilitating the energy transition by developing infrastructure to deliver affordable and clean energy.
