WELCOME TO
GARDLINE

Dear applicant

Thank you for your interest in the Environmental Data Analyst role at Gardline Limited. The successful candidate will develop and run coded solutions to aid the collation and analysis of data collected by the field team and where appropriate, following laboratory analyses.

You will be forward-thinking and adaptable, able to prioritise tasks based on company and client requirements. You'll have data experienced from the core disciplines of either Marine Wildlife or Benthic acquisition.

Gardline Limited values diversity and is committed to creating an inclusive workplace where everyone can thrive. We welcome applications from individuals of all backgrounds and experiences.

For more detailed information about the role and the application process, please refer to the accompanying documents. Should you have any questions about the position, feel free to reach out to our Recruitment Team at recruitment@gardline.com.

If you are interested in working for us and believe that this job suits you, I encourage you to apply.

Best regards,

Sam Massingham
Head of HR

Gardline

OCEAN RESOLUTION

MV OCEAN RESOLUTION

WHO WE ARE OUR MISSION

Everything we do is shaped by our vision and mission. From the people we recruit to the solutions and services we develop, we constantly strive for excellence, with industry leading, problem solving through offshore data-driven insight. By providing high quality data and expert analysis, we lay the foundations for efficient progress and sustainable growth.

We empower our energy clients through our marine surveys, with integrity, excellence and innovation; the keys to our success. You'll find such qualities in our people, our environment and our policies and practices. It's the way we encourage our staff to think, speak and behave. Above and below sea level, Gardline performs second to none in both worlds.

Our vision

The importance of in-depth marine survey will continue to grow, especially due to the challenges of a transforming energy sector.

Our mission

Gardline empowers the transforming energy sector by providing second to none marine surveying.

Our future

With intelligent solutions, smart project control and in-house developed technologies, we work with our clients to deliver a cleaner, safer environment for tomorrow. Above and below sea level, Gardline performs second to none in both worlds.

WHO WE ARE OUR VALUES

Our Values: Setting the tone for 'how we do things around here'

Safety

Our people and their safety is the core of our success. Safety is the top priority in everything we do. Our behavioural safety program NINA targets No Injuries No Accidents to safeguard our colleagues and suppliers.

Responsibleness

We are committed to conduct our business with integrity, honesty and fairness. Integrity is a prerequisite for success and an important cornerstone of our reputation. The impact of our activities on society and the environment is a key element in the way we conduct our day-to-day business.

Professionalism

We strive to achieve the best results for the job without making promises we cannot deliver. With our expertise and experience in project management, operations and risk management we seek to deliver our projects safely, on time and within budget.

Entrepreneurship

We offer innovative, competitive and sustainable solutions for our clients. With our strong business sense, we are forward thinking, exploring new ideas and opportunities. We take pride in creating new horizons.

Teamwork

By working together we create new horizons. We approach our complex and specialist work with a collective mindset and the objective to excel. Collaboration within teams and cooperating with clients, suppliers and other stakeholders allows us to get the job done.

OUR PARENT COMPANY

BOSKALIS

A leading global dredging and offshore contractor and maritime services provider, Boskalis offer a unique combination of experts, vessels and activities. With their origins in the Netherlands, Boskalis have been operating for over 100 years. Today they create new horizons for their stakeholders in the ports, offshore energy, maritime and inland infrastructure markets. Boskalis acquired Gardline in 2018 and since then have been instrumental in the development, improvement and success of the business. We work closely with our counterparts in Papendrecht across the business. If you would like to find out more about Boskalis, visit www.boskalis.com.

ORGANISATIONAL ARCHITECTURE

SURVEY

Our Survey Division is responsible for end-to-end survey management, for our fleet of multi-role survey vessels and takes care of our offshore survey and marine crew. They organise crewing and travel needs, procuring supplies for the vessels, mobilisations, data acquisition and project management through to the final deliverable report to the client.

GEOTECHNICAL

Our Geotechnical Division is responsible for end-to-end geotechnical management for our fleet of geotechnical vessels including, taking care of our offshore geotechnical crew, project management, data acquisition and analysis in our onshore laboratory, contributing to the final deliverable report to the client.

ENGINEERING

Our Engineering Division is responsible for ensuring that all our equipment and technology is in good working order, available and on the vessels in good time, ready for our projects. The Workshop and Logistics Departments take the lead on this, whilst our Research and Development Teams work on equipment improvement and innovation. Our Positioning Team work on our navigation systems, ensuring we are in the right place at the right time.

CENTRAL SERVICES

Central Services in Gardline comprises of the business functional needs, such as IT, Finance, HR, SHEQ, Facilities and Legal Departments and are essential in the smooth running of the business both operationally and for our people.

TOP TALENT OPPORTUNITY

ENVIRONMENTAL DATA ANALYST

TEAM: Survey

REPORTS TO: Environmental Manager

LOCATION: Onshore. Prospect House, Hewett Road, Great Yarmouth, NR31 0NN.

DURATION: The position is a full-time, permanent role, 37.5 hours per week.

TOP TALENT OPPORTUNITY

MAIN DUTIES

You will develop and run coded solutions to aid the collation and analysis of data collected by the field team and where appropriate, following laboratory analyses. You will also play an important role working alongside other Gardline departments to implement time-saving solutions to assist in the delivery of client deliverables.

Your responsibilities as an Environmental Data Analyst

- Develop and maintain analytical code to expedite environmental assessment of the acquired data.
- Work alongside the Client and Deputy Reporting Managers to develop software and write code enabling more streamlined offshore data acquisition.
- Provide training in the use of tools and scripts to the reporting team.
- Undertake database creation and maintenance along with modelling of environmental datasets to further Gardline's analysis capabilities.
- Through the use of developed code and software tools analyse, interpret and present data interrogation findings relevant to the Marine Wildlife and/or Environmental disciplines (training will be given where required).
- Maintain quality control records for software, code and tools developed within the role.
- Update databases with individual project metadata and key analysis results when required.
- Liaise with and assist other Gardline departments when required.

TOP TALENT OPPORTUNITY

PERSONAL SPECIFICATION

You can move ahead as an Environmental Data Analyst if you have;

Required Qualifications and Skills:

- MSc or higher Degree (or equivalent) in a relevant discipline (i.e. Computer or Data Science, Software Development)
- Proven coding knowledge and software creation experience.
- Skills in one or more coding languages (Python and/or C++ or other object oriented languages)
- Three years experience of MS Office products (particularly Word, Excel and PowerPoint).
- At least two years demonstrable experience of writing computer code.

HORIZON GEODRILL

WHAT YOU CAN EXPECT HERE

HUMAN EXCELLENCE

Human Excellence is all about creating an environment at Gardline where you feel safe, connected and involved. Where you can work on your talents and bring out the best in yourself. It's about knowing and being able to be yourself, enjoying your work, being distinctive and finding balance in your work. We encourage everyone to constantly work on this and offer you the tools to support you. Human Excellence consists of four focus areas:

**Performance &
Development**

Vitality

**Internal
Mobility**

**Diversity &
Inclusion**
